DETAILED ACTION

Response to Amendments

1. The reply filed 4/25/05 consists of amendments to claims 1-4, 6, 8, addition of new claims 9,10 and remarks related to rejection of claims. The claims are not allowable as explained below.

Specification

2. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 6 and 9-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Ohta et al. (5559374).

Ohta (Figures 2-14) shows a bus bar comprising an aluminum-based 1 formed into desired circuit configuration to form a plate-like circuit body and an L-shaped terminal piece 4 made from copper-based metal plate wherein a horizontal portion of the L-shaped terminal piece is electrically conductively and directly connected to an intermediate portion of the circuit body by welding such that a vertical portion 4A of the terminal piece projects from the circuit body forming a tab.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kuromitsu et al. (5096768) and Nakajima et al. (6787893).
6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Response to Arguments

7. Applicant's arguments filed 4/25/05 have been fully considered but they are not persuasive. The horizontal portion of the L-shaped terminal piece is electrically conductively and directly connected to an intermediate portion of the circuit body by welding.
